

Tony Senior - *personal profile*

1953-1961

My name's Anthony Charles Senior - Tony for short. I arrived very timidly a very afraid 9 yrs old in '53, left a much more confident 17 yr old in '61.

Joined the Royal Air Force as an air traffic controller until '73. A long and varied list I am now nearly at the end of a long career as a bus driver in rural Dorset. As to school I was in Nelson House, and proud of it.

I remember a lot of names but the faces aren't so clear. Roger Hicks (east-end scrap dealer, two fire axes in his belt) Waddington (3 bore shotgun down his trouser leg) Miller (never without a cricket bat " weapon") Williams Crossley (day boy) Padfield brothers (the middle one or thereabouts fed my model of the golden hind ship to his pet squirrel) and others.

Yes, I spent some time on the central lawn as well. Here's another memory, I and Stevens used to get the bread from the bakers just before mid morning break (wonderful pasties and jam turnovers). Hope to hear from you soon Tony Senior ... anyway more about me.

I got married in June 08 to a fine young lady of mature age as I needed someone to show me how to live life to the full. I retire in 2009 and counting from a very important and worthwhile and grossly underpaid job on the buses, (yuk) but someone has to do it pity it turned out to be ME.

Any more photos of the best house at Harlow 53-61 NELSON of course, would be appreciated (theres a big word).

Hope to here from someone soon, I feel left out, bye for now Tony SENIOR (53-61).

You can email me at Tony Senior
